Yup, i think so, but ill have to buy a steam account if i want to get it. Well since there's no preloader to test, and the rating system, and the tutorial, and finally the game itself, the game would be about 50 times better if it was ported to MacOS X. As for the lack of intuitive key binding, it's my first 2D RPG game, i would've liked to see how they would port the control scheme to MacOS X, but i cant really be mad, because i'm used to
